

A Guide for Summer with Cool Undertone

Flattering Colors:

Cool Pastels: Lavender, ice blue, soft pink.
Muted Tones: Dusty rose, mauve, powder blue.
Cool Neutrals: Charcoal gray, soft white.
Soft Greens: Seafoam green, sage green.

Less Flattering Colors:

Bright Warm Tones: Orange, golden yellow (clash with your cool undertone).
Dark Muted Tones: Burgundy, olive green (can overwhelm your soft palette).
Warm Neutrals: Camel, warm beige (can look muddy).

Jewelry Recommendations:

Silver: Complements your cool undertone.
White Gold: A sleek, modern choice.
Rose Gold: Can work in small doses.
Avoid Gold: May look too warm.

Additional Tips:

Opt for cool, soft makeup tones (e.g., pink blush, cool-toned eyeshadow).
Hair colors with cool undertones (e.g., ash brown, platinum blonde) work best.
