

A Guide for Winter with Cool Undertone

Flattering Colors:

Cool Bright: Royal blue, emerald green, fuchsia.
Jewel Tones: Sapphire, amethyst, ruby.
Cool Neutrals: Pure white, black, icy gray.
Deep Tones: Navy, plum, charcoal.

Less Flattering Colors:

Muted Tones: Beige, olive green (can look dull).
Warm Pastels: Peach, coral (clash with your cool undertone).
Warm Neutrals: Camel, warm beige (can look muddy).

Jewelry Recommendations:

Silver: Complements your cool undertone.
White Gold: A sleek, modern choice.
Platinum: A luxurious option.
Avoid Gold: May look too warm.

Additional Tips:

Opt for bold, cool makeup tones (e.g., red lipstick, cool-toned eyeshadow).
Hair colors with cool undertones (e.g., jet black, ash brown) work best.
