

# A Guide for Winter with Neutral Undertone

## Flattering Colors:

Cool Brights: Royal blue, emerald green, fuchsia.

Jewel Tones: Sapphire, amethyst, ruby.

Neutral Tones: Pure white, black, icy gray.

Deep Tones: Navy, plum, charcoal.

## Less Flattering Colors:

Muted Tones: Beige, olive green (can look dull).

Warm Pastels: Peach, coral (clash with your cool undertone).

Warm Neutrals: Camel, warm beige (can look muddy).

## Jewelry Recommendations:

Silver: Works well with your neutral-cool leaning.

White Gold: A sleek, modern choice.

Platinum: A luxurious option.

Gold: Can work in small doses.

## Additional Tips:

Experiment with both warm and cool makeup tones, but lean slightly cooler.

Hair colors with neutral undertones (e.g., dark brown, jet black) work best.
