

A Guide for Autumn with Neutral Undertone

Flattering Colors:

Earthy Tones: Mustard yellow, burnt orange, olive green.
Muted Reds: Terracotta, brick red.
Deep Greens: Forest green, moss green.
Neutral Tones: Warm beige, taupe.

Less Flattering Colors:

Bright Neons: Electric blue, neon pink (overpower your muted palette).
Cool Pastels: Ice blue, lavender (can wash you out).
Cool Grays: Ash gray (can look dull).

Jewelry Recommendations:

Gold: Works well with your neutral-warm leaning.
Rose Gold: A flattering, modern choice.
Copper: Adds warmth and richness.
Silver: Can work in small doses.

Additional Tips:

Experiment with both warm and cool makeup tones, but lean slightly warmer.
Hair colors with neutral undertones (e.g., chestnut, dark blonde) work best.
