

A Guide for Spring with Cool Undertone

Flattering Colors:

Bright Cool Tones: Coral, peach, sky blue.
Light Greens: Mint green, lime green.
Soft Blues: Aqua, periwinkle.
Neutral Tones: Ivory, warm beige.

Less Flattering Colors:

Dark Muted Tones: Burgundy, olive green (can overwhelm your brightness).
Warm Pastels: Peach, golden yellow (can clash with your cool undertone).
Cool Grays: Ash gray (can look dull).

Jewelry Recommendations:

Rose Gold: Complements your cool undertone with a hint of warmth.
Silver: A classic choice for cool undertones.
Gold: Can work in small doses.
Avoid Copper: May look too warm.

Additional Tips:

Use makeup with neutral-cool undertones (e.g., pink blush, cool-toned eyeshadow).
Hair colors with cool undertones (e.g., ash blonde, platinum) work best.
